Hi,

I finished the science review of the draft HH risk assessment for P-21-0125. My comments have been shared with the assessors and posted in the pertinent databases.

There is a substantive issue the health assessors will have to address before finalizing the document and transmitting to RBM.

I will review it today and let you know on the CBI side. We will likely have to circle back with the assessor on a particular science issue.

Is it safe to assume we will not meet the 90days on this case? August 2 is next week. When do you believe the HHRA can be completed?

All:

I will take this....it is for a company meeting I was at a few weeks ago....

The draft HHRA was completed by so I believe the case is awaiting QAQC. I will defer to to see if she knows of any specific issues on this case.

Can you provide me the status of this case? Day 90 is August 2, and this PMN had been flagged a HOF case.
